# TO THE TRADE.

---

In presenting our semi-annual trade list for the spring of 1900, we wish to thank our many patrons for their liberal patronage during the past year, and assure them that we are much better prepared to handle their business than we have been in the past, having completed our large frost-proof packing house, which is 170 by 136 feet, and thoroughly ventilated, with a railroad switch running into the building. We respectfully solicit a share of your patronage.

## **LOCATION.**

Our Nurseries are situated 54 miles southwest from Kansas City, on new slope lands along the Marias des Cygnes river, the banks of which are skirted with a heavy growth of timber, affording a splendid windbreak and protection to young trees. Thus we are enabled to produce clean, thrifty stock, at one and two years, suitable for the market. Our railroad and packing facilities are as good as the best, being on the main line of the Missouri Pacific and A. T. & S. F. railways, with a switch to our packing ground.

Our Nurseries embrace over 500 acres, closely planted, a large part of which are Standard and Dwarf Pear, Cherry, Plum and Peach, as well as a general assortment of Ornamental Trees and Shrubs.

## **PACKING.**

Our Packing Season begins from the 1st to the 10th of October, in the Fall, and from the 1st to the 10th of March, in the Spring. We pack all stock in the most thorough manner, for which a moderate charge—sufficient to cover the cost—will be made. Boxes packed and paper lined will be charged as follows: 30 inches square, 8 to 10 feet long, as the trees may require, at \$3.00 each; 24 inches square, at \$2.50; 18 inches square, at \$1.75. Bales at from 25 to 75c each.

## **SHIPPING DIRECTIONS.**

Please furnish us with explicit shipping directions, mentioning the route, and whether you wish shipment by express or freight. When no particular directions are given we will use our judgment, but in no case do we assume any responsibility as to safe arrival and condition of trees and plants, after a proper shipment.

Under our present western classification, we are entitled to a lower freight rate by releasing to a value of \$5 per 100 pounds. When not instructed to the contrary, we will release accordingly.

**GRADES.**

We grade carefully—in some cases by caliper, others by height; when by both, the caliper must govern. The lower number is included and higher number excluded. For instance, in a grade of four to five feet; four feet trees are included, but five feet trees go into the next grade higher. If plump five feet trees are wanted, the order must be for five to six feet. When desired, we will send samples to prospective customers.

**TERMS.**

Cash, or satisfactory security before shipment. Remit by Kansas City or Eastern exchange, or Express Money Order. Orders to be sent C. O. D. must be accompanied by at least one-fourth the cash.

To prompt paying customers the usual 30 to 60 days will be allowed from the date of shipment; but where the time is not especially agreed upon, 30 days is to be understood. Interest will be charged on all over-due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made are expected to stand.

When the order amounts to \$50 or over, the articles will be figured at thousand rates, regardless of the number taken.

Prices on seedlings are subject to change without notice.

**GUARANTEE OF GENUINENESS.**

While we exercise the greatest diligence and care to have all our trees and plants true to label and hold ourselves in readiness on proper proof to replace all trees that may prove untrue to labels, free of charge or refund the amount paid, it is mutually understood and agreed to between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than originally received for the trees that prove untrue.

**A Health Certificate will be furnished with each shipment.**

BREWER & STANNARD, Ottawa, Kan.

KANSAS STATE HORTICULTURAL SOCIETY,  
P. J. PARROTT, Official Entomologist.

OTTAWA, KANSAS, August 23rd, 1899.

**THIS IS TO CERTIFY**, That I have this day made an examination of the Nursery Stock now growing on the grounds of BREWER & STANNARD, Ottawa, Kansas, and that I find thereon no evidences of the presence of the San Jose Scale; and moreover, I find that this stock is apparently in excellent condition as to growth, health and freedom from noxious insects.

P. J. PARROTT,  
Entomologist of State Horticultural Society.

# FRUIT DEPARTMENT.
